## 

## SHOE SHELF INSTALLATION INSTRUCTIONS

NOTE: Use one shoe support 2-4" from each end of shelf and every 48" in between.

Pre-assembly: Determine shoe shelf location. Install wall clips according to package instructions. 1. A. Hold shoe shelf so front lip faces up.

- B. Place shoe support between shelf wires as shown.
- C. Rotate shoe support (90°) as shown. Be sure shoe support is wedged firmly between shelf wires.
- 2. Adjust shoe support to hook onto back wire of shelf.
- 3. Snap back wire of shelf into wall clips. Lower front of shelf until shoe support leans on back wall.
